Day 5 - Friday 18th September 2020

9.30am (+8 GMT)

Brunei History from Mid-nineteenth century until 1984

The talk presents an overview of Brunei history, focusing mainly on the mid-nineteenth century until 1984 when Brunei became fully independent. It covers the relationship between Brunei and the Brooke's in Sarawak, the British Residential period in the first half of the twentieth century, the Anglo-Brunei Agreement that brought the British Residency to an end, Brunei's first constitution, the turbulent early 1960s, Brunei's relations with neighbouring states, and the political developments that led to eventual full independence in 1984.

Presenter:

Dr Stephen Druce

Lecturer, Academy of Brunei Studies UBD

2.30pm (+8 GMT)

Borneo: A Biodiversity Hotspot and a Centre for Bioinspiration

Brunei Darussalam is located on the northwestern coast of Borneo, the world's third largest island and a hotspot of biodiversity. In this interactive presentation, student will learn why Borneo is of interest to naturalists and explorers and why Brunei has been at the centre of many naturalist discoveries. Student will be introduced to Brunei's rich biodiversity, structured around the ecological relationships of competition, parasitism and mutualism. Student will learn about links between landscape change, disease ecology and human health as well as the existential issues of conservation. Finally, you will learn about how animals and plants can inspire new developments in engineering and technology.

Presenter:

Dr Ulmar Grafe

Professor, Faculty of Science UBD
